MSW Referral Process

Step 1

Student is identified by school staff and data supports that mental health is interfering with academic success.

Step 2

Need for services is determined by the school student assistance team (SAT/MTSS) or by consultation between the MSW and District Liaison.

Step 4

After consent is signed, the school liaison will then complete the MSW referral form.

Step 3

The identified school liaison will contact the student's guardian to complete the written consent for the student to receive mental health interventions.

MSW will then begin providing services.
